1.ABOUT

Information about the initiative

Comparable skills across the PostgreSQL ecosystem

The Open Alliance for PostgreSQL Education frames and executes standardized PostgreSQL exams.

The result is a unified, community-driven PostgreSQL certification which enables the PostgreSQL industry to offer:

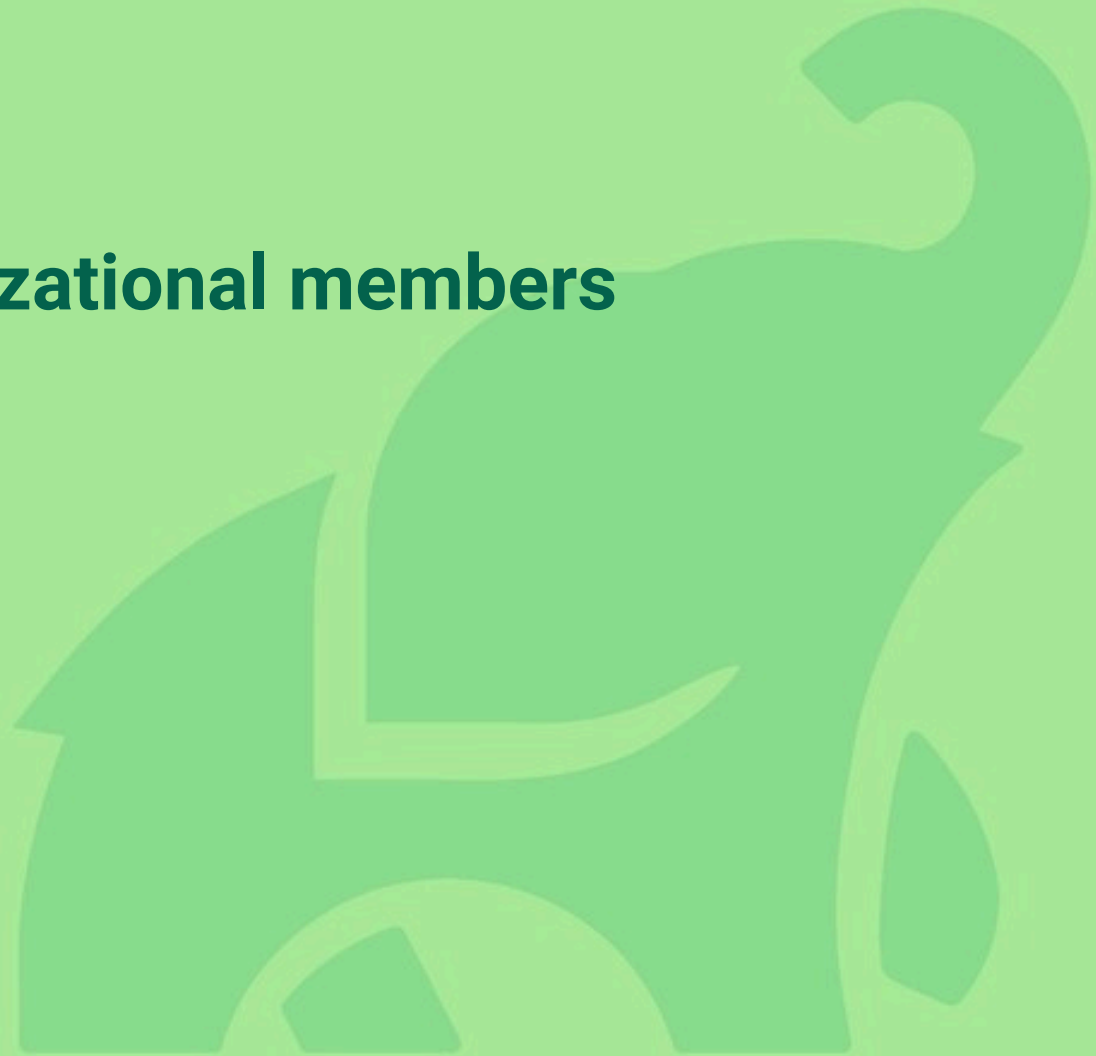

- Transparent skill levels
- Fair comparison of expertise
- Clear professional development paths

This benefits *individuals and employers*.

2.JOIN

Benefits for organizational members

Join the OAPE as an organizational member

- <#1> Strategic Influence & Participation
- <#2> Public Recognition & Trust Signalling
- <#3> Branding & Visibility Opportunities
- <#4> Participation in OAPE Professional Networks
- <#5> Contribution Pathways for Your Staff

<#1> Strategic Influence & Participation

As an organizational member, you gain:

- One seat in each OAPE working group, including:
 - governance
 - curriculum advisory
 - quality assurance
-
- The ability to:
 - propose new education initiatives
 - suggest new working groups
 - recommend extensions to the certification roadmap

<#2> Public Recognition & Trust Signalling

- Permission to use the
 - “OAPE Organisational Member” badge on company website, printed marketing materials or social media (subject to OAPE brand guidelines)
- Company listing on the OAPE website:
 - logo
 - short description (provided by the company)
- Recognition in:
 - OAPE news pages
 - social channels
 - official reports

<#3> Branding & Visibility Opportunities

Increase visibility in the global PostgreSQL ecosystem:

- Priority consideration for sponsoring:
 - OAPE events
 - summits
 - webinars
- Reduced sponsorship fees for OAPE events

Position your brand where standards are defined

<#4> Participation in OAPE Professional Networks

Organizational members gain access to:

- Cross-geography, cross-industry working groups
- Direct exchange with:
 - DBAs
 - educational institutions
 - vendors
 - community leaders

Build relationships that shape the future of PostgreSQL education.
